List of IFCN Chapters and member societies

The following is a listing of the IFCN member societies. This is up to date through 2009. The list is separated by Chapter region. There are four chapters. In addition to the regular member societies representing national clinical neurophysiology organizations, the International Clinical Neurophysiology Society (ICNS) is treated as if it were a national member society.

The societies are given below within each chapter in alphabetic order by their nation's name as listed on the Federation website. The member societies are:
